PUBLICATIONS, MAPS, AND DATA SERVICES

Available from the

National Geophysical Data Center
NOAA, Code E/GC4, Dept. 440
325 Broadway
Boulder, CO 80303 USA

This brochure provides information about some of the many data products and services now available from the National Geophysical Data Center. It includes titles of publications, maps, data announcements, and slide sets available in solid earth geophysics (including seismology, geomagnetism, gravity, geothermics, geochemistry, coal, tsunami and volcano data) and data available in marine geology and geophysics. Because titles may describe data that are available in several disciplines, some titles are repeated under different sections.

To order, please write the item number or title of each product you want on the Order Form enclosed and return it to this office.

U.S. Department of Commerce regulations require prepayment on all non-Federal orders. DO NOT SEND CASH. Only checks or money orders made payable to DOC/NOAA/NGDC will be accepted as payment. Checks or money orders for all non-USA orders must be in USA dollars drawn on a USA bank.

All orders must include a \$10 handling fee; non-USA orders must include an additional \$10 handling fee. Orders also may be charged to an American Express, Visa or MasterCard. Please include card number, name of cardholder, expiration date, telephone number and your signature with the order.

Please direct telephone inquiries to:
